Medium Temperature Application

Low Temperature Application

FUSION RECIPROCATING & SCROLL CONDENSING UNIT

On all models

- + Operates with refrigerant R404A, R407A
- + Robust weather resistant housing
- + Highly reliable compressor
- + Liquid receiver with fusible plug
- + Adjustable HP/LP pressure safety switch
- + Liquid line with sight glass and filter drier factory fitted
- + IPX4 rated casing.
- + Noise data tested to ISO 3774-2 standard
- + Oil separator and check valve for low temperature models
- + Externally mounted service valves for easy isolation and an extended tail for easy installation

* Operating current rated using R404A at (-10/+32°C) MT & (-25/+32°C) LT conditions. Different operating condition will produce different result.
** Sound pressure levels @10m free field at (-10/+32°C) MT & (-25/+32°C) LT conditions. Alternative conditions may produce different results.

FUSION TANDEM DIGITAL SCROLL CONDENSING UNIT

On all models

- + Copeland Hermetic Scroll compressor - ZBD & ZB (Digital & Fixed)
- + Four condenser fans with control mode selection option
- + Fan speed controller
- + Electrical control panel with mains isolator
- + Phase protection module
- + Mechanical by-pass circuit
- + Compressor HP switches
- + External status lights
- + Internal ball valves and external service valves
- + Liquid line drier and sight glass
- + Pressure relief valve on liquid receiver
- + Operates with refrigerants R404A, R407A, R407F, R448A & R449A

FUSION DIGITAL SCROLL CONDENSING UNIT

- + Copeland Hermatic Digital Scroll Compressor - ZBD (Digital)
- + Liquid receiver with fusible plug
- + Oil separator and discharge check valve
- + Manual Motor starter with short circuit and overload protection
- + Advanced programmable controller
- + High & Low pressure transducers
- + Mechanical by-pass circuit
- + Manually adjustable low pressure switch
- + AC modulation fan speed controller
- + Fuse protection on controller, fan speed controller and backup system
- + Operates with refrigerant R404A, R407A, R407F, R448A & R449A

UNIT COOLER

- + Can be used with refrigerants R404A, R448A/R449A, R134a, R507A and R410A.
- + DX evaporator coil, with shredder valve soldered into suction line for ease of superheat measurement.
- + GI casing with pre-coated paint.
- + IP44 Axial fan with moisture proof protected and built in thermal overload.
- + Up to 3 heaters can be slotted for defrosting
- + Pre-fixed wiring to fan motor.

Warning

- Ask a qualified installer or contractor to install this product. Do not try to install the product yourself. Improper installation can result in water or refrigerant leakage, electrical shock, fire or explosion.
- Use only those parts and accessories supplied or specified by Daikin. Ask a qualified installer or contractor to install those parts and accessories. Use of unauthorized parts and accessories or improper installation of parts and accessories can result in water or refrigerant leakage, electrical shock, fire or explosion.
- Read the user's manual carefully before using this product. The user's manual provides important safety instructions and warnings. Be sure to follow these instructions and warnings.

If you have any enquiries, please contact your local importer, distributor and/or retailer.

Cautions on product corrosion

1. Units should not be installed in areas where corrosive gases, such as acid gas or alkaline gas, are produced.
2. If the outdoor unit is to be installed close to the seashore, direct exposure to the sea breeze should be avoided. If you need to install the outdoor unit close to the seashore, contact your local distributor.
